

## Technical Specifications

<b>Power Consumption</b>	1.5 kW
<b>Water Consumption</b>	9 liters/min
<b>Water Pressure bar</b>	3 bar
<b>Net Weight</b>	300 kg
<b>Number of operators</b>	0

## Features for the VMK440

VMK440 Skinning machine for herring. It removes the skin in such a way that a fine silver surface remains on the fillet.

Fully automated and adjustable, the skinner is following the speed of the filleting line. It is turning the butterfly fillets into skin-free single fillets. The Skinning machine has a motor of its own, and can be by-passed when processing skin-on fillets.

- Fixed speed
- Stainless steel and FDA materials
- Simplified maintenance procedure
- For skinn-free single fillets or by-pass of butterfly skin-on fillets.
- In-line connection with VMK11, filleting machine
