The VMK45

This is a simple and rigid knife sharpening machine suitable for the VMK circular knives. Sharp knives is one of the cornerstones for a good cutting result.

The machine is simple to operate. It has variable speed and timer setting for automatic shut-off.

The machinery is all made of non-corrosive material and complies with all CE machinery directives.

All machinery comes with one year warranty. For a smooth start, an experienced VMK technician can be present on land- or vessel installations.
